

This is a concern for the Low Power FM stations in Dayton, OH more specifically K-LOVE. I enjoy listening to K-LOVE everyday. It is uplifting and encouraging to hear some good music and announcers that do not degrade civilization or tear other people down by making fun of them.

If K-LOVE is replaced by Low Power FM station I know there would not be another station that I would listen to that has a positive message and does not make fun of people like other stations. Many people I know enjoy and are encouraged when they listen to K-LOVE in the Dayton area. I am one of them. Please do not make the LPFM a priority over the translators for K-LOVE.
